Aug 2018 – May 2021

PROJECTS

RequestTalk (Startup)

Angular, ASP.NET Web API, EF Core, SQL Server

[Live Demo](#)

- * It is a calendar/appointment scheduling tool that is both powerful and simple to use. Easily configure your availability settings, then email or embed the link with your client or team member.
- * Also integrated **Email Notification functionality** using Nodemailer and Node.js
- * Utilized **responsive design** to ensure compatibility across all devices
- * Deployed on Netlify, hosting backend at Cyclic.

Share & Care (Startup)

Angular, Node.js, Express, MongoDB, Mapbox GL

[Source Code](#)

- * Give get free stuff and borrow lend household items – all directly from your community online.
- * Exposed POST, GET, PATCH and DELETE HTTP methods using **Express**
- * Integrated real time **Google Map using MapBox GL with Angular**.
